# Managed Detection and Response

Intelligence-driven, advanced  
Managed Detection and Response  
for the cyber resilient enterprise.

## OVERVIEW

As the threat landscape continues to evolve and grow in complexity, securing the enterprise is harder than ever. Traditionally, defending against relentless attackers required specialized expertise, multiple costly technology investments, and constant vigilance.

Deepwatch Managed Detection and Response (MDR) operates as an extension of your cybersecurity team, providing 24/7/365 comprehensive security management capabilities in partnership with Deepwatch security experts.

Our hybrid SecOps model (people + technology) ensures unrivaled knowledge of your environment, unparalleled visibility across your attack surface, precision response to threats, and the best return on your security investments for enhanced cyber resilience.

## ADVANTAGE

**The Deepwatch Security Platform enables our managed detection and response services** by incorporating advanced capabilities including curated threat intelligence, malware analysis, and contextual threat analytics through integrations with best-in-class technologies, security experts, and a dynamic, user-friendly interface.

Deepwatch Managed Detection and Response aligns with industry regulations including HIPAA, HITECH, PCI DSS, SOX, and GDPR.
