

STRATEGIC PARTNERSHIP

# Deepwatch x CrowdStrike

A partnership built to bring the next generation of security solutions to enterprises.

## THE DEEPWATCH PLATFORM + CROWDSTRIKE FALCON

Deepwatch's Unified Cyber AI Platform of Platforms modular approach and CrowdStrike's industry-leading Falcon platform allow customers to meet their cyber resilience needs and security program budgets head-on.

Customers can be assured of successful reductions in time to detection, coordinated response, and threat exposure, paired with an increase in visibility and security effectiveness, all done while maximizing the return on the security budget and maintaining or reducing SIEM/ Logging and Security Operations costs.

## WHY DEEPWATCH + CROWDSTRIKE

Deepwatch is now an Elite Strategic Partner of CrowdStrike, a partnership built to bring cyber resilience to even more enterprises.

Deepwatch is partnering with CrowdStrike to set the bar for the next generation of holistic modern security solutions and operations by leveraging CrowdStrike's industry-leading Falcon Platform, AI, and modules, including its Charlotte AI, Falcon Next-Gen SIEM, Falcon Insight XDR, Identity Threat Detection & Protect, Exposure & vulnerability management, and Cloud Security.

The Deepwatch AI-powered platform and 24/7 cyber security operations, threat hunters, and intelligence experts enable enterprise customers to become more effective, efficient, and cyber resilient than previously possible and defeat rising threats.

## Benefits of this Partnership

### Effective:

- ✓ Increased cyber resilience
- ✓ Measured cyber outcomes
- ✓ Transformation of legacy products & SIEMs

### Efficient:

- ✓ Increase TCO/Cost Avoidance
- ✓ Increase ROI by lowering costs through sunsetting legacy products and hosting
- ✓ Lower engineering and ops workloads

### Easy:

- ✓ Deepwatch can hold the CrowdStrike license
- ✓ Customer BYOL CrowdStrike License and upsell new modules
- ✓ Reseller option for customer
